PROFESSIONAL SUMMARY

Passionate and detail-oriented Flutter Developer with hands-on experience building cross-platform mobile and desktop applications using Flutter and Dart. Skilled in developing scalable applications, integrating REST APIs, Firebase, Supabase, and local databases while applying Clean Architecture and modern state management solutions such as BLoC/Cubit and GetX. Passionate about creating high-performance, user-friendly applications and continuously learning new technologies.

PROJECTS

Clinic Management System *Flutter • BLoC/Cubit • Supabase • REST API*

A comprehensive clinic management system developed for physiotherapy and medical centers to improve communication between doctors and streamline patient management.

- Doctor authentication and role management
- Patient medical records, appointment, and treatment tracking
- Internal notification system with secure cloud database using Supabase
- Responsive dashboard for doctors

Coffee POS & Management (Shady Café) *Flutter • SQLite • PDF Generation*

A complete Point of Sale (POS) and business management system for coffee shops, supporting both desktop and mobile platforms.

- Sales, invoice, products, inventory, and customer management
- Local data persistence using SQLite database
- Integrated 80mm thermal receipt printing and automated daily sales reporting

Medical Assistant App *Flutter • BLoC/Cubit • REST API*

A healthcare assistant application designed to support clinics and medical professionals.

- Modern and highly responsive UI layout
- Full Clean Architecture implementation with Repository Pattern
- State management using BLoC/Cubit and full backend integration

Expense Tracker App *Flutter • SQLite*

A personal finance application for tracking income and expenses efficiently.

- Income and expense tracking with local data persistence
- Interactive financial dashboard with real-time balance calculation

TECHNICAL SKILLS

Languages & Frameworks

Flutter, Dart

State Management

BLoC / Cubit, GetX

Architecture

Clean Architecture, Repository Pattern

Backend & Databases

Supabase, Firebase Auth, Cloud Firestore, Firebase Storage, SQLite

Networking

REST APIs, Dio, Postman

Tools & Version Control

Git, GitHub, Android Studio, VS Code

Additional Skills

PDF Generation (80mm Thermal Receipts), Google Play Console, Responsive UI Design

EDUCATION

Bachelor of Computer Science

LANGUAGES

- **Arabic:** Native
- **English:** Good
- **German:** Elementary (A2)

SOFT SKILLS

- Problem Solving
- Teamwork
- Communication
- Time Management
- Fast Learner
- Adaptability
